

# Fronius wifi reprogram...

### **1. BEFORE YOU START:**

You will need the password and the name of the WiFi network you want to connect too. Download Fronius Solar.Web App from App store or Google Play and install it on a smart phone or tablet.

## 2. GO TO INVERTER:

- Go to main menu by pressing the "back button" (second from right)
- 2. Go to "SETUP menu" on the display of the inverter. Press "Enter" (far right button)

 Go to "wifi access point" Press "Enter" (far right button)

 You should see "activate wifi AP" Press "Enter". (far right button)

You have now activated the inverters wifi.
